Feherty's Troops First Foundation (T1F) provides meaningful assistance to our military who have been wounded while serving in Iraq and Afghanistan. Through programs and events specifically designed for OIF/OEF combat-wounded service members and their families, T1F addresses relationship building, mentoring, reintegration and looking forward.

In addition, T1F initiatives facilitate a greater recognition and understanding of the quality and character of the men and women who volunteer to serve, their families, their daily sacrifices and the constant need to evaluate and improve their quality of life upon their return from service.
